MOBILE ROOFTOP

Mobility Meets **Mastery of Efficiency**

Inspired by the dynamic Orion constellation, the Orion Mobile Rooftop Series offers versatile, reliable air conditioning for temporary and mobile needs. Compatible with R454-B and R410-A refrigerants, it features scroll compressors, an intuitive LCD display, filter alarms, and automatic defrost for easy use. With cooling, heating, heat pump modes, and BMS integration, Orion ensures exceptional performance and adaptability for any climate control challenge.

STATE-OF-THE-ART

KEY COMPONENTS

▶ **R-454B Refrigerant**

▶ **EC Supply Fan**

▶ **Electrical Heater**

▶ **25 mm Thickness
Double-Skinned Casing**

▶ **EC or 3-Speed Highly Efficient
Outdoor Axial Fans**

▶ **Suction Accumulator**

▶ **High Efficiency Scroll Compressor**

STANDARD STRUCTURE & TECHNOLOGY

▶ **Up to 100% Outdoor Air Ratio**

▶ **User-Friendly Control &
Automation System**

▶ **Oven Baked Electrostatic
Powder Paint Coating**

▶ **Wide Operation Envelope**
operating from -15 °C to 40 °C
with %100 Fresh Air

▶ **Versatile Range** from 2250 to 8000
m³/h Airflow and cooling capacity
up to 46 kW

▶ **Scroll Compressors Powered by
IDV Technology**

▶ **A1 Class Rockwool Insulation** with
70 kg/m³ density

▶ **Highly Efficient Solution Beyond
Eco-Design Requirements**
